B. EGFW 2232, 2 July 1956

1. On 23 December 1960, AEMARSH 1 received a letter forwarded from [redacted]. The letter, which was forwarded to FOB by AEMARSH 1, was mailed from the USSR and contained a Christmas card with an odd handwritten message. The original letter is forwarded to Headquarters under separate cover as Attachment I.

2. AEMARSH 1 stated that he and [redacted] were surprised to receive a letter since they understood that this mail drop was closed about two years ago. Since AEMARSH 1 recruited [redacted] as a mail drop in 1956, he wishes to notify [redacted] now if more mail is expected or if this letter was some mistake.

3. According to the records here, the [redacted] letter drop was issued to AECOB 7 (Reference A). There is, however, an indication (Reference B) that Headquarters also used this drop address on a letter to one of the AECOB agents, but there is no record here that AECOB 7 was the agent involved. The handwriting on an old letter from AECOB 7 to the [redacted] drop does not compare with the handwriting on the recent letter to the [redacted] drop. The old AECOB 7 letter with S/W message is forwarded to Headquarters under separate cover as Attachment II.

4. It is suggested that Headquarters compare the handwriting on the recent letter (Attachment I) with samples from all the AECOB internal agents to see if there is any correlation which might suggest the type of S/W ink to be expected in case there is a S/W message involved. It is requested that Headquarters inform FOB of any results and instruct us regarding what should be told to AEMARSH 1 for [redacted].
